## PREFACE.

---

The tables in this volume contain ephemeral matter which it has been found undesirable to include in the text of the *Gazetteer of Sibi*.

Under the orders of the Government of India, the statistics are to be re-compiled and a new edition of this volume brought out after each census.

The volume can also be expanded by adding to it, in the interleaved blank forms, any matter that the district and other officers who use it may require to correct or supplement the text in the A volume. This process is to go on till the Local Government considers revision of the text in the A volume necessary, when all supplementary text matter, embodied at each periodical revision, will be incorporated in the new A volume, and volume B will revert to its original form as a statistical appendix.

A McCONAGHEY, MAJOR.

*Quetta, December 1906.*

§ Column 12. "Others" include Sikhs 377, Parsis 14 and Jews 4. \* Figures for 1891 are not available. The figures in columns 19 and 20 include those persons only in whose case literacy was recorded in that category. The figures were censused on the standard schedule. They numbered 79,4 as follows: Sibi taluq 5699, Shahrāq 2185 and Kohlu 40. The population of the Kohlu taluq excludes the Marris living in that taluq who are included in the Marris country. They number 662.

NOTES.—(1) The route lists are intended primarily for District officials. They merely indicate the more important routes used by caravans, etc., and make no pretension to be exhaustive. Distances, except when drawn from published route lists, are approximate only. A distance, not taken from a public route list, is marked by the letter *c*, *i.e.*, *circa*.

(2) The following nomenclature has been used :—

*Metalled Road* } indicates that a road is fit for  
*Unmetalled Road* } carts.

*Bridle-path* indicates a made path fit for camel and other pack transport.

A *track* is unmade, but usually fit for camel transport.

A *footpath* or *path* is ordinarily used by runners and footmen, but is generally fit for horses and donkeys and is traversable even by loaded camels in many cases.

Mángi, R.S., L.P., T.	15 $\frac{3}{4}$	103 $\frac{1}{2}$		The Zardálu Railway station is passed at about five miles from Khost, and about half a mile further a footpath branches off to the Hanna valley over the Uzhda psha pass. This path was largely used by the people before the railway was built. Dirgi Railway station is about three and a half miles further. Hence footpaths take off to Kásim Tangi by the Zauki rift, and to Mángi by the Chhappar rift, locally known as the Dirgi Tangi. The main road goes over the Chhappar hill by the Kazha Liár (winding path), the distance to the top being c 4 miles, whence a path descends into the Mángi valley. From Mángi there is a good bridle path to Ziárat through the Kásim Tangi (21 miles), and a footpath to Kánr through the Khum Tangi. The latter is not fit for horses.
Kach(Kats), R.S., L. P., T.	12 $\frac{1}{2}$	115 $\frac{3}{4}$	Rest-house. (Khánsá- mah main- tained dur- ing summer months).	About 6 miles from Mángi is the Mudgorge Railway station, locally known as the Zangal or Kúz station. Hence a footpath takes off to Tor Shor in Zarghún Ghar (c 12 miles). About three miles further a footpath goes to Hamadún by Wargas Plae. The Kach fort now used as a Levy post is about 1 $\frac{1}{2}$ miles from the Railway station. Ziárat is 32 $\frac{3}{4}$ miles, and Quetta 28 $\frac{3}{4}$ miles by a metallad cart road.

P i s h í n, T., P. O., Head- quarters of Pishín Sub-divi- sion.	16 $\frac{1}{4}$	143	Rest House, Political Rest-house.	The road runs along the bed of the Spézhanaí <i>nullah</i> and joins the Pishín-Déra Ghazi Khan road at 8 $\frac{3}{4}$ miles from Pishín.

## GENERAL DESCRIPTION.

The total distance from Sibi to Pishín is 143 miles. The height of Sibi is 350 feet above the sea level, and the highest point along the route is the Bráhimán Kotal which is 5,633 feet. The principal streams passed are the Nári and its affluents which is crossed several times in the first 24 miles ; the Gandakindaff between Bábar Kach and Kucháli ; Dáda and Kuriák between Dalújál and Spíntangi ; Loe Lahr and Sare Lahr between Spíntangi and Sunri ; Súrwám, Shahédar and Punga between Harnai and Sháhrig ; Amboh, Khost and Dirgi *mándas* and the Zhizhgai, which last named lies between Mángi and Kach and the Kákar Lora. The last part of the road between Kach and Pishín is in good condition.

Sibi District.

The water-supply along the whole route is obtained from running streams or from springs, and is generally good and abundant. The water at Kach is considered laxative. There are bazars at Sibi, Spintangi, Harnai, Sháhrig, Khost and Pishín, and shops at Dirgi, Mángi and Kach, where ordinary native provisions in limited quantities are procurable. For supplies in large quantities, and for fowls, eggs, milk, sheep and goats, fuel, and fodder at these places, and for supplies at all other places previous notice should be given to the Tahsildárs through the Political Agents concerned. The country between Sibi and Spintangi lies in the Sibi Sub-division, from Spintangi to Kach inclusive in the Sháhrig tahsil of the Sibi District and Gharkai and Pishin in the Pishin tahsil of the Quetta-Pishin District.

Ziárat (Gushki) L.P., T., P.O. Head-quarters of Sibi District during summer months.	16	61½	Rest-house, Dák Bungalow).	(a) From the fort across the Kowás stream at 4½ miles a good bridle-path goes to Spéarággha 9½ miles. (b) At Zandra, 2½ miles from Kowás, there is a Levy Post and also an unfurnished M.W.D. hut. A bridle-path runs through the Zandra Tangi to Manra (c 8 miles), from which place there is a track which leads to Chichanák, Ghwanz and Pui (c 21 miles). From Manra Spéarággha can be reached through the Zargai Tangi (8 miles.) (d) A foot-path, sometimes used by laden bullocks and donkeys, goes from Manra to Karbi Kats (15 miles). It passes through Gharata Mándá, Chisana Manra, the juniper forest over the slopes of the Kása hill, the Sareobo Tsari, Much Tangi, Dhre Tangi, and at places is difficult for horses. The last 5 or 6 miles run through a gorge enclosed by high hills. (e) A good bridle-path fit for horses and laden camels connects Ziárat with Mángi station 21 miles. (f) Foot-path from Ziárat to Sháhrig via Wuch Aghbargai (22 miles). (g) Foot-path over the Doméra hill to Sháhrig (21 miles). This path is steep and difficult, and only fit for foot passengers.
Chautér (Levy Post).	16	77½	Rest House	At about ten miles is Karbi Kats from which there is a foot-path to Manra. (a) From Chautér a track fit for laden camels runs over the Kazha Narai pass and then descends into the Shírín valley (3 miles). Pui is reached at about 8 miles further on.
Smállan (Levy Post) T., P.O.	24½	102	Dák Bungalow. Serai.	

GENERAL DESCRIPTION.

The total distance from Quetta to Smállan is 102 miles. The road, which is maintained by the Military Works Department, is bridged and partially metalled and is fit for carts. It is liable to be blocked by snow during the winter months. At Ziárat Tsari, about 4 miles from Ziárat, it crosses the highest point (8,600 feet) traversed by any cart road in Baluchistán. The part between Kowás and Smállan possesses interest from the fact that a portion of it was travelled over and described by Richard Steel and John Crowther, English merchants, who made their way from India to Persia in 1614. They mention Durues or gates of the mountains (apparently Dhre Tangi), Coasta or Kowás and Abdun or Hamadún. In the Wani valley, 4 miles from Chautér, are to be seen the ruins of the three villages known collectively as Seh Kota and separately as Káraván kila, Ráni kila, and Dom kila. Smállan lies on the Harnai-Loralai cart road, 36 miles from Harnai and  $19\frac{1}{4}$  miles from Loralai. Duki is about 22 miles from Smállan. About 6 miles from Chautér a foot-path, made in the spring of 1897 under the orders of Colonel Gaisford, leads to Pui over the Khatki or Taki hill. From Rigora (14 miles) a track goes to Pui, 14 miles. Gandak and Sarántangi lie in the Quetta tahsil, Kach, Kánr and Ziárat in the Sháhrig tahsil of the Sibi District and Chautér and Smállan in the Sanjáwi sub-tahsil of the Loralai District. Khánsámahs are maintained at Kach, Kánr and Ziárat Rest Houses from May to September.

The water-supply at Gandak is small but good, at Kach it is abundant but somewhat salt and laxative. At other places it is abundant and good.

There are shops at Kánr, Ziárat and Chautér during May to September, half a dozen permanent shops at Smállan and one at Kach, at which *atta*, grain, fuel and native provisions are procurable. Supplies of all descriptions are obtainable at Ziárat during the season. For other places previous notice should be given to the Tahsildárs concerned through the Political Agent.

During the season pony tongas ply between Kach Railway station and Ziárat, and baggage camels are procurable on hire. To obtain these, application should be made to the Thánadár of Ziárat.

Jacobábád (in Sind) R.S.T., P. O. Headquarters of Upper Sind Frontier District.	31	104	Political Rest-house.	

GENERAL DESCRIPTION.

The total distance from Sibi to Jacobábád is 104 miles. The track lies mostly over *pat* and affords easy going in ordinary weather, but becomes difficult and indeed almost impassable after heavy rain. Mall lies within the Sibi tahsíl, and Sháhpur, for purposes of political control, is included in the Nasirábád Sub-division. The intermediate stages lie in the Lahri niábat of Kalat, but the Political Agent, Sibi, exercises political control over the Dombki and Kahéri tribes. There are villages and banias' shops at each stage, and ordinary native provisions and fodder are obtainable in small quantities, for larger quantities previous notice should

Rojhán ...	11	199	Dak Bungalow.	Head-quarters of the Mazári chief, 38 miles from Rajanpur, and 125 miles from Déra Gházi Khán.

## GENERAL DESCRIPTION.

The total distance from Sibi to Rojhán is about 199 miles. Up to Dinghán the country is open and easy. After this the path enters the hills and turns in an easterly direction to Loti, whence it takes a southerly direction as far as Kabodráni; after Kabodráni it again turns in an easterly direction. Sibi and Mall lie in the Sibi tahsíl of the Sibi District, the country from Théri to Lahri is in the Dombki country, from Dinghán to Khajúri in the Bugti Tribal Area, and thence onward in the Mazári (Punjab) limits. In ordinary years grass and fuel are obtainable at each stage.

Previous notice for supplies should be given to the Political Agent, Sibi, for places between Sibi and Khajúri inclusive), and to the Deputy Commissioner of Déra Gházi Khán for the other stages.

An alternative route, which lies in comparatively more populated and better cultivated country, would be from Lahri to Phuléji (Kahéri village, *c* 16 miles), Sháhpur (Bugti Levy Post and a Saiad village, *c* 24 miles), Shahr Karam Khán in the Nasirábád tahsíl (*c* 18 miles), Sanari Levy Post in Nasirábád (*c* 19 miles), Malguzár (*c* 15 miles), a village in Nasirábád, Puchár Adya (*c* 20 miles), a village in the Kashmor circle of the Jacobábád District, Sháhwáli (*c* 18 miles), a Mazári village in the Déra Gházi Khán District and Rojhán (*c* 18 miles). Kauráni Awaráni.	c 9	96	.....	The Do-Jhamak Kotal (pass) is crossed at about 4 miles from Kahan. Both sides of the Kotal are steep and stony, and in their present condition (1905) are difficult for laden camels. Water from Sorén Kaur brackish. Grass and fuel obtainable. (a) A hill path leads from Kauráni Awaráni to Triman (c 12 miles) and Vitakri (c 23 miles).
Dhil	... c 14	110	.....	The Makhmár hill torrent is crossed several times. Water from Makhmár brackish. Fuel and grass obtainable.
Bor	... c 12	122	.....	The path lies along the Makhmár stream for about 9 miles when the Phazal Chū pass is crossed. Water from Domak stream good. Grass and fuel obtainable.
Kohlu, L. P., T., P. O., Head- quarters of the Kohlu Sub- tahsíl.	c 16	138	Rest-house.	The Bor pass, which is steep and stony, is crossed about $\frac{1}{2}$ mile from Bor. The rest of the road runs over the Kohlu plain ( <i>pal</i> ) and is level and easy. After heavy rain the ground near Kohlu is impassable.

## GENERAL DESCRIPTION.

The distance from Sibi to Kahan is about 87 miles and to Kohlu about 138 miles. The path for the greater part lies through hilly and stony country. It is rough and difficult, but is practicable for laden camels. The Do-Jhamak and Bor passes are especially steep and difficult. Sibi and Mall lie in the Sibi tahsíl, Tratáni belongs to the Dombkis, and the country between Méhi and Bor is in the Marri Tribal Area. Fuel and grass are generally procurable locally, but for other supplies previous notice should be given to the Political Agent, Sibi.

## TABLE XII.—TRAVELLERS' BUNGALOWS.

There are three kinds of travellers' bungalows in the District, namely, (1) *dák* bungalows, (2) rest-houses, and (3) Political bungalows and Civil and Public Works Inspection bungalows. The standing orders relating to them (1905) are reproduced briefly below.

No permission is required for the occupation of *dák* bungalows and rest-houses. All Government servants, European and Indian, drawing Rs. 100 per mensem and over, *náib* tahsildárs, European and native private gentlemen, native commissioned officers and European clerks are entitled to shelter. Other Government servants in superior service drawing less than Rs. 100 per mensem, as well as European soldiers, are entitled to shelter in a special room set apart in the compound. Sepoys, police menials and native travellers, other than those mentioned above, are entitled to accommodation, free of charge, in the shelters attached to the out-houses. The charge is Re. 1 and annas 8 respectively for each person occupying a *dák* bungalow or rest-house for every 24 hours or part thereof. Servants of such persons are entitled to accommodation in the out-houses free of extra charge. Each person occupying the special room in a *dák* bungalow already referred to is required to pay Ans. 2 and in a rest-house An. 1 for the same period. There is no limit to the period of occupation. Food is supplied in the *dák* bungalows at the rates laid down in the tariff hung up in the rooms, unless terms are specially agreed upon. The *Khánsámah* of the bungalow, if required, also cooks provisions furnished by travellers, the charge for cooking including firewood being As. 8 per day for each person.

*Dák*  
bungalows  
and rest-  
houses.

Travellers halting in the rest-houses have to make their own arrangements for supplies and for cooking, but where possible the *chaukidár* or Levy man in charge provides on payment, wood, *bhúsa*, &c.

Political  
bungalows  
and Civil  
and Public  
Works  
Inspection  
bungalows.

Political bungalows and Civil and Public Works Inspection bungalows are houses specially reserved for departmental officers on tour. The gazetted officers of the department, to which the bungalow belongs, have prior claims to accommodation in the order of their seniority, but, subject to this rule, the officer in charge of an Inspection bungalow can lend it without payment to any gazetted officer of any Government department travelling on duty. Officers in charge of bungalows are also authorised to permit non-officials and officials not travelling on duty to occupy Inspection bungalows, when available, for a period not exceeding seven days.

Note 1.—The increase in the revenue of 1904-05 is largely due to the sum of Rs. 32,244-2-5 recovered by the Khan's officials for the *rabi* crops (1903) of the Nasirabad Tahsil, having been credited into the Government Treasury during 1904-05.

Note 2.—The sudden fall in the revenue of the Sibi Tahsil for 1904-05 is due to the failure of the *Kharif* crops of the *Khashkha* lands and to the suspension of certain items of Revenue.
